CLEO

Inspired by the legendary divan of Queen Cleopatra, the Cleo outdoor sofa set brings a touch of regal luxury to your outdoor living space. This voluptuous sofa is designed to offer both opulence and comfort, making it the perfect centerpiece for your patio or garden. Crafted with a sturdy aluminum frame, the Cleo sofa ensures durability and stability, while the cost-effective wicker weaving adds a sophisticated and timeless appeal. Whether you are reading a book or enjoying a glass with friends and family, this sofa set provides the ultimate in relaxation and style.

ANGELICA

design Edi e Paolo Ciani

Outdoor living, re-imagined. Featuring elegant dining chairs and a comfortable sofa sets, each piece showcases handcrafted rope detailing in three different weaves: knot, 1x1, and tight straight weaving. Durable, stylish, and made for comfort and style This family brings comfort and charm to every outdoor space..

ANGELICA
DINING CHAIR

DIAMOND

design Edi e Paolo Ciani

Diamond combines a classic weaving pattern with small but very noticeable design elements. The arm rest of the dining chair connects delicately to the back rest while the sofa set shows a nice harmony between an oval frame resting on sturdy rounded legs. For this occasion we combined the Diamond dining chair with the Pipe dining table, designed by studioPANG, learning us that its perfectly fine to combine different products from different designers, leading to a perfect harmony.

CARE INSTRUCTIONS

Ropes

Deco Mesh Rope is made from complex fibre strings strengthened with filament yarns that give them a durable and resistant structure, while our Deco Polyolefin rope is made from highly durable synthetic resin yarns. The structure of our ropes makes them stain-resistant and easy to clean. In case there is a spot to clean, please use following instructions: Non-greasy marks: warm water spot clean with half a spoonful of any standard washing powder or liquid (non-bleach) in a cup of hot water. Blot the stain with a cloth or a sponge dampened with this solution. Once the spot is removed, sprinkle the area with clean water to remove any possible traces of washing powder or liquid. Do not use stain removers. Oil or grease spots: butter, oil, lipstick, and the like will not penetrate the yarn, so it can easily be cleaned in the same way as mentioned above.

Do not use high-pressure water spray equipment to clean the furniture in any case but use a general gardening hose instead if needed. Deco Ropes resist sunlight, saltiness, sunscreen cream, abrasion, sweat, stains, etc. for many years and provide worry-free maintenance.

Fabrics

S’48 uses only the best-quality mesh, acrylic, and olefin fabrics, which have proven their durability in daily use. All fabrics have been successfully tested by following the ROHS and REACH test standards. Cleaning the fabrics requires not more than lukewarm water, a cloth, and, on some occasions, a mild detergent. The fabrics are designed so that no dirt or water can penetrate the fibers, so simply wipe off any dirt with a (lukewarm) wet cloth.

Storage

When protected by a cover or stored indoors, make sure the fabrics and inner fillings of the cushions are completely dry to prevent possible infection by mold or fungus.

Aluminium and Steel

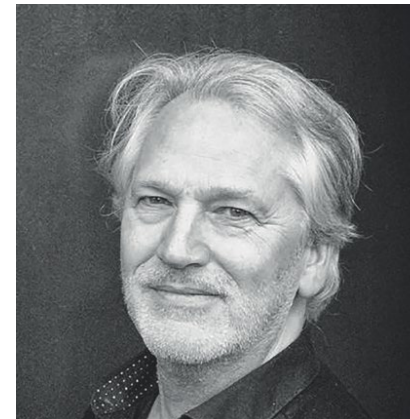

Clean aluminum and steel furniture parts with water, mild soap, and a sponge. After cleaning, rinse the furniture with plenty of water to remove any possible residue.

Teak

Teak is easy to clean with a combination of lukewarm water and soda. Use a soft brush to gently clean the affected part of the product. The color of teak, by nature, turns over time into a nice silver/grey patina. This does not affect the durability or weatherproof resistance of the product. It is a cosmetic change, which is liked by many. In case you wish to remain the original color, there are various products on the market to help achieve this. Products like teak protector and teak oil, as well as various teak repairs. When using a cover for your teak product, make sure you do not close the product airtight and leave some room for the teak to “breathe.” This prevents mold or fungus growth, which can permanently damage the product

DESIGNERS

Ed Van Engelen _Netherlands

After his graduation at the Design Academy Eindhoven in 1988 he has been working as a designer for international companies for more than 20 years, mostly in garden furniture related companies where he was responsible for the designs of in and outdoor products. Since 2008 he is working independently for leading outdoor and decoration brands worldwide.

In this field he has won some international job awards and many of his designs have been commercially successful in the past years. As an experienced designer he knows the ins and outs of all kinds of materials and can be involved in the process from the first sketch as far as the last specifications in the factories.

Edi e Paolo Ciani _Italy

Product and interior designers, they deal with design of furniture and articles of Industrial Design for over 30 years.

Since 1987 Ciani's brothers create and develop products for leading companies in the furniture for home, for office, for contract and outdoor. Given their long experience in the design furniture industry, they are able to offer assistance to customers from the first concept about each project up to technical and production consultancy.

studioPANG _Italy

Fabio Damiani and Marco Quistini set up studioPANG in 2012, based on the shared idea that by combining diverse passions and skill sets, the approach to the project is enriched with new ideas and perspectives.

Design, architecture and communication are, first and foremost, opportunities for comparing and contrasting, before being channeled into the project. StudioPANG is a workshop – one that is constantly engaged on researching and developing ideas and projects; an open, dynamic environment that leverages a wealth of different experiences to give rise to a versatile and multi-faceted business.
